Sarah E. Scott

Boise State University, Boise ID, sarahscott390[at]u.boisestate.edu

---

EDUCATION

Master of Science, Raptor Biology (in progress) 2023-present
Boise State University

Bachelor of Science, Biology 2014-2017
University of Wisconsin - Stevens Point

RELEVANT EMPLOYMENT AND RESEARCH EXPERIENCE

Research Technician
Boise State University, Heath Lab 2023-present
Monitoring of breeding population of American kestrels as part of a multidecadal research effort. Capture of adults, sample collection. Training and supervision of undergraduates in field and lab.

Research Assistant
University of Arizona, Badyaev Lab 2019-2023
Responsible for collection of morphological/biological data from research populations of House finches at field sites in Missoula, MT and Tucson, AZ as well as sample analysis and data management in the lab. DNA extraction, PCR and gel electrolysis of over 500 samples. Trained undergraduates in lab methods. Developed and optimized lab protocols.

Migration Technician
Raptor View Research Institute 2022
Member of a fall migration crew conducting raptor count and banding operations in Montana with special emphasis on Golden eagles.

Research Technician
High Arctic Institute 2022
Conducted arctic breeding bird surveys and biological sample collection focusing on the eleven species of seabirds, raptors and passerines in northwestern Greenland. Assisted with construction/installation of emergent insect traps, collection of aquatic insect specimens and identification/sampling of tundra plant species.

Lead Banding Assistant
University of Arizona, Duckworth Lab 2019-2022
Responsible for capture and banding of Western and Mountain bluebird nestlings and adults across various study sites/populations, tracking nest progress, conducting aggression trials, reading/re- sighting color bands, collecting behavioral observations, training of technicians/crew and maintenance of project data sets.

Multi-purpose Trainee
Intermountain Bird Observatory 2020
Part of a multi-functional fall migration crew: diurnal raptor banding and migration counts.

Data Technician
Augustana College 2020-2023
Processing nest camera data collected by High Arctic Institute biologists in northern Greenland.

LTE Field Technician
The Institute for Bird Populations 2018
Conducted field surveys for Willow flycatchers and North American beaver in varied, wetland habitats using GPS and audio equipment

Student Research Assistant
Cooper's Hawk Field Experience, UWSP Biology Department 2017
Summer Raptor Ecology field course work included observation and banding of local Cooper's hawk pairs and their nestlings.

Student Research Assistant
Greenland Peregrine Study, UWSP Biology Department 2017
Backcountry surveys and data collection in service of a multi-decadal data set on Greenland's breeding population of Peregrine falcons.

GRANTS & AWARDS

American Ornithological Society Student Research Grant | $4,000 2025
Department of Biological Sciences Graduate Student Mentoring Award: Honorable Mention 2025
Boise State Graduate College Excellence in Graduate Mentoring: Honorable Mention 2025
Association of Field Ornithologists Travel Award | $900 2025
Western Field Ornithologists Research Grant | $ 1,500 2025
Raptor Research Center McCaslin Scholarship | $2,500 2025
Raptor Research Center Trustee Fellowship in Raptor Biology Award | $1,500 2025
Boise State University Michael W. Butler Ecological Research Award | $3,000 2025
Associated Students of Boise State University Travel Grant | $500 2024
Boise State University College of Arts and Sciences Travel Grant | $500 2024
Boise State University Dan Montgomery Graduate Student Award | $3,000 2024
Raptor Research Center Trustee Fellowship in Raptor Biology Award | $1,500 2024
Association of Field Ornithologists Bergstrom Research Grant | $1,500 2024
NSF Research Experience for Post-Baccalaureate Students (REPS) Grant 2020
Supplement to NSF LTREB Grant | Alex Badyaev, PI

INVITED TALKS & CONFERENCE PRESENTATIONS

Invited Panelist, *Excellence in Graduate Mentoring Panel: Practices That Make a Difference*. 2026
Boise State University, Boise, ID.

Society for Integrative and Comparative Biology| Portland, OR 2026
Investigating Migration Strategies, Haemosporidian Infection, and Fitness Consequences in a Partial Migrant Population |Poster | **S.E. Scott** (presenter), S.J. Galla, S. F. Hudon, A. B. Simler-Williamson, J.A. Heath

Raptor Research Foundation Annual Conference | San José, Costa Rica 2025
Investigating Migration Strategies, Haemosporidian Infection, and Fitness Consequences in a Partial Migrant Population |Presentation | **S.E. Scott** (presenter), S.J. Galla, S. F. Hudon, A. B. Simler-Williamson, J.A. Heath

Association of Field Ornithologists Annual Conference | Ogden, UT 2025
Investigating Migration Strategies, Haemosporidian Infection, and Fitness Consequences in a Partial Migrant Population | Presentation | **S.E. Scott** (presenter), J.A. Heath

Idaho Conference on Undergraduate Research | Boise, ID 2025
How Does Irrigation Affect American Kestrel (Falco sparverius) Nest Site Selection and Parasite Infection | Poster | I.C. Piedmont (presenter), **S.E. Scott**, M.G. Hutchinson, S.A. Low, J.A. Heath

Boise State University Graduate Student Showcase | Boise, ID 2025
Historical Prevalence of Haemosporidian Parasites and Telomere Dynamics in a Partial Migrant Population of American Kestrels | Poster | **S.E. Scott** (presenter), J.A. Heath

Boise State University Undergraduate Research Symposium | Boise, ID 2025
Effects on Incubation Behavior in American Kestrels (Falco sparverius) | Poster | M.G. Hutchinson (presenter), **S.E. Scott**, L. Reynard, J.A. Heath

American Ornithological Society Annual Conference | Estes Park, CO 2024
Historical Prevalence of Haemosporidian Parasites and Telomere Dynamics in a Partial Migrant Population of American Kestrels | Poster | **S.E. Scott** (presenter), J.A. Heath

Raptor Research Foundation Annual Conference | Albuquerque, NM 2023
Migration Strategies and Morphology of American Kestrels | Poster | M.G. Hutchinson (presenter), **S.E. Scott** (presenter), J.A. Heath

---

TEACHING EXPERIENCE

Graduate Teaching Assistant/Instructor
Boise State University
Vertically Integrated Projects: Biology of Migratory Birds (Disease Ecology module) 2024-present
Biology 227: Anatomy and Physiology Lab 2023-present

MENTORSHIP & OUTREACH

Boise State University, Heath Lab
Supervision of undergraduate research experience (groups of 5-15 students) 2023-present

- Training in field and lab techniques
- Facilitation and support of independent research projects (6 students)

Birds of Prey NCA Partnership Raptorfest 2025

- Student engagement and educational activities

Boise State University Engineering and Science Festival 2025

- Student engagement and educational activities

Professional Societies

Society of Integrative and Comparative Biology	2025-present
Western Field Ornithologists	2025-present
American Ornithological Society	2024-present
Association of Field Ornithologists	2024-present
Raptor Research Foundation	2023-present

Trainings & Certificates

Wilderness First Aid Certification	2025
CITI Certification	2025
CPR Certification	2024
